Everyone hates estate agents – but are they the most complained about professionals in the UK? Online property experts [Sell House Fast](https://sellhousefast.uk) took to Google to find out the professions Brits love to complain the most about.

Using SEMRush's Keyword Magic Tool, housing experts at [Sellhousefast.uk](https://sellhousefast.uk) have obtained the search volumes for terms related to 'complaint' for the most notorious professions in the UK – but which ones do we love to hate the most?

THE TOP 10 PROFESSIONS BRITS COMPLAIN ABOUT MOST

Brits ask Google how to complain about our police force about 29,000 a month. This figure is almost 6 times bigger than the profession found in second place, with complaints about lawyers and solicitors googled 5,860 times a month.

Estate agents can have a bad reputation, and sometimes for good reason. With that in mind, perhaps it comes as no surprise that 1,830 Brits google 'Estate agent complaint' every month.

BRITS ARE NOT HAPPY WITH GOVERNMENTAL SERVICES

Perhaps the most worrisome data shown is when it comes to governmental services. While we already noticed a huge number of people searching for 'Police complaint', GPs and Teachers are also getting a high number of complaints. In fact, a whopping 1,830 Brits search for 'GP complaint' monthly, while each month 1,560 teachers might not be performing at the standards parents would like to either.

Nurses, Opticians and Dentists are not doing too great either, in fact if you add together all the medical professions you'll get a total of 3,770 googled complaints monthly.
